

Return your guestrooms to service quicker

The cost of removing and replacing balcony concrete is substantial, labor-intensive and often risky.

MG-KRETE™ is the most cost-effective and safe alternative available.

- ✚ **MG-KRETE™** is a **permanent repair** product ideal for balcony projects.
- ✚ It can be troweled vertically and overhead, dyed and/or stamped.
- ✚ **MG-Krete™** provides a **waterproof, non-skid surface**.
- ✚ Most applications can be **returned to service within 1 hour!**

Once installed **MG-KRETE™** provides a considerably stronger surface that is more durable and resilient to environmental conditions, salts and UV radiation. This makes **MG-Krete™** the best overall choice for coastal applications and conditions.

MG-KRETE™
